

How to Change Products according to Title

Step 1 Click on products

The screenshot shows the Studio editor interface for editing a mobile app. The left sidebar is titled 'Edit Products (grid or carousel)' and has three tabs: 'Content', 'Style', and 'Advanced'. The 'General' section is expanded, showing settings for 'Data source' (Bestsellers), 'Categories or tags', 'Order by', 'Offset', 'Query type' (OR), 'Sort order' (Inherit), 'Hide out of stock products' (Yes), and 'Exclude'. The main canvas displays a mobile app mockup for 'STORE BAZAAR'. The app has a search bar at the top, a 'Today's Offers' section with three product cards, a 'Special Offers' banner for 50% off, and a 'Categories' section with three buttons: 'Grocery', 'Oil & Ghee', and 'Biscuits & Cookies'. A purple box highlights the first product card in the 'Today's Offers' section, which is for 'Vighnraj Jewels' with a price of ₹149. The right sidebar shows a 'Navigator' panel with a tree view of the page structure, including 'Section', 'Column', and 'Inner Section'.

Step 2 click on categories and tags and search your desire categories to show

Step 3 after assigning your desired categories it will show
